

Ideas for Inside Home Collection

- We recommend using a kitchen pail for storing food scraps inside.
- Empty food scraps into the yard debris roll cart often.
- Wrap food items, like meat and fish, in newspaper and store in the freezer until collection day.
- Wash kitchen pail in the dishwasher or by hand.
- Pails can be purchased on various e-commerce sites.

Roll Cart Tips

- Keep lid closed.
- Store the cart in the shade during warm weather.
- Line bottom of cart with newspaper or a paper bag to help absorb moisture.
- Layer food scraps in between yard debris.
- Sprinkle baking soda in the roll cart to reduce odors and deter insects. Use soap and water to clean the roll cart after it is emptied.
- DO NOT USE KRAFT BAGS AS A CART. Personal containers must not exceed 35gal or 50lbs.

Yard Waste Season April – November

Your food scraps make a difference!

Nearly 40 percent

of residential garbage produced is organic material that can be composted. Composting food scraps creates a nutrient-rich soil enhancement and prevents carbon emissions that occur when food breaks down in the landfill.
